With plenty of sunshine and moderate UV levels, sun protection is advised. The northeasterly breeze and freezing level at 800m mean it will continue to feel cold, especially on mountain tops.

**Chance of cloud free mountain/hill tops above 800m:** 100%

**Visibility:** Visibilities will be excellent on hill tops throughout the whole day but poor in valleys at the start and end of the day.

**Temperature:** **Valleys:** Minus 1 Celsius becoming Plus 9 Celsius.
**At 800m:** Minus 1 Celsius becoming Plus 4 Celsius.
**Freezing level:** 800m at first, rising above the summits. Frost in valleys.
